Mission Statement

Our Adult Leagues are meant to be a competitive and fun hockey environment. We try and provide a fair and safe facility to take part in the greatest game on earth.

There are no scouts coming out for adult league players, and most of us work tomorrow. Respect is earned and expected for all players, officials and employees alike.

All participants carry the same responsibility for the respect and safety of those around them. The game of hockey can be appreciated by playing or watching.

Compete at your highest level and always continue to improve! Comfort is the enemy of development. Hockey is the best reason to not be at home watching TV.
